Harold Worth Walking Path Paving Project News Release

The Town of Delisle, along with the Delisle & District Recreation Association, are excited and pleased to announce that we were approved for funding through the Canada Community Revitalization Fund (CCRF) for the paving of the Harold Worth Park Walking Path. The CCRF investment of \$85,145, along with the additional Town of Delisle funding of \$28,471, will bring this \$113,886 project to completion.

The paving of the 1.45km walking path is expected to happen in late summer. Pavement will mean current and future Harold Worth Park users will have year-round access to this beautiful walking path.

“Our government, through the Canada Community Revitalization Fund, will support paving a local walking path for the Town of Delisle,” said the Honourable Daniel Vandal, Minister for PrairiesCan. “This investment will help provide residents and visitors with accessible outdoor recreation spaces to enjoy year-round.”

About the Canada Community Revitalization Fund (CCRF): this is a federal fund administered in Saskatchewan by PrairiesCan. The fund assists non-profit organizations, municipalities, community groups and Indigenous communities across Canada to build and improve community infrastructure projects. The CCRF is a two year, five hundred million national infrastructure program to revitalize communities across Canada.
