

## SUMMARY:

The Town of Delisle is seeking proposals from local and surrounding area contractors for services relating to repairs to our landfill building. The desired start date will be approximately June 1<sup>st</sup>, 2025 and ending approximately 30 days thereafter. The recommended candidate will be selected after a fair and non-biased review of proposals received.

## SCOPE OF WORK:

The purpose of this project is to complete outstanding repairs on the landfill building to extend the life of the building. The project includes replacement of the current floor and subfloor, construction of a small privacy half-wall within the building, and possibly also the installation of a larger window though this last item may not actually be included in the scope of this particular project. There are no electrical or plumbing fixtures which would require attention or movement throughout this project.

Payment in full will be provided once the job is completed to the satisfaction of the Town. Proposals should include a summary of experience relating to construction of buildings, walls, and subfloors and include any applicable certificates or transcripts. At least two references who have benefited from your work within the last 1-2 years would be favorable on your proposal.

## DEADLINE:

The Town of Delisle will accept proposals until March 31<sup>st</sup> with selection determined by the end of April. Extension of the deadline will be considered if sufficient proposals have not been received. Inspections of the building on site may be arranged during times the landfill is scheduled to be open, which is presently Tuesdays & Thursdays 3pm to 5pm and Saturdays 9am to 3pm.

Proposals may be sent to the Town Office email at: [delisle@sasktel.net](mailto:delisle@sasktel.net)

Thank you!
