OLD BUSINESS

Volunteers are still needed to maintain the flower bed in front of the clinic. Future options would be to remove the flower bed and replace it with concrete or gravel. With a new building lease on the horizon with SHA, it was suggested that allowances be included in the new lease to address maintenance and safety issues around the building. It could also allow for reimbursement to the Health Council for hiring local contractors to perform snow removal, grass cutting, etc. which has been an issue in the past. Local contractors were never getting paid by SHA for their services. The Health Council could take over these responsibilities but only if SHA was going to provide compensation in the new lease. SHA will be approached with this proposal.

Mark Dubkowski did a financial review of the Delisle First Responders accounts for the past year and prepared a Statement of Revenue and Expenditures. The statement shows a modest surplus for the past year. As usual, Darcy Parker is doing an excellent job of looking after these books.

NEW BUSINESS

These items were discussed during the SHA report.
